

# Our Learning

Week 3

Home Learning

## **Phonics:**

This week, the children have consolidated their knowledge of the sounds they learnt last week: **sh, th, ng'** and **nk**. We have also done lots of blending practise and have written many words that contain these sounds.

Please complete the phonics activity below, as this will help support your child in consolidating their phonics knowledge.

[For parents | Letters and Sounds](#) for pronunciation of phonemes

## **Reading:**

Your child will continue to bring home a new reading book each week. Please enjoy looking through the book together each day and record your reading in the diary. **Make sure your child's reading book and diary are in their book bag and brought to school each day**

## **Tricky words**

Please continue to practise reading your tricky words at home using your tricky word book. Tick them off when they know them on sight.

## **Maths suggestion**

In our maths lessons, we have explored **mass** and **capacity**. We have used objects in the classroom and scales to help us recognise which object is the heaviest or lightest. We have used Numicon, which is weighted, to compare numbers to 5.

Can you make a balance scale to **compare** the mass of objects at home?

### Next Week

**Maths:** In our maths lessons, we will be exploring the numbers **6, 7** and **8**. We will count objects and practice finding **one more** or **one less**, all the way to **8**!

**Topic:** In our topic lessons, we will be using the story '**The Enormous Turnip**' to learn about different vegetables and why they are healthy for us to eat.

**Phonics:** In our phonics next week, we will be having a review and assessment week. We will recap all the sounds we have learned so far and identify any sounds that need a little more practice.

### Reminders

- Lots of the children are become confident at getting changed independently for P.E, which is fantastic to see! Well done Robins and Wrens!

A helpful skill to practise at home is learning how to turn clothes the right way round (inside out).

# Representing Numbers 1 to 5

1		2		3		4		5	
---	---	---	---	---	---	---	--	---	---

### **Phonics Book Bag Activity**

In book bags today there is a sorting activity that the children can complete to consolidate their knowledge of the digraphs that we have been learning in phonics sessions.
